FEATURES AND BENEFITS

- ◆ A trusted, reliable, effective ergonomic solution for stand-up sewing operations.
- ◆ Maximizes human performance, health and safety, and efficiency in a sewing operation.
- ◆ Proven, patented, and medically endorsed.
- ◆ Designed to reduce the stress of standing by 50%.
- ◆ Alternating legs to sew promotes a healthy rhythmic posture, proper circulation, comfort, and necessary relief from fatigue and strain on muscles, joints, tendons and the lower back region.
- ◆ Enhances flexible and modular manufacturing goals, while significantly reducing potential injury.
- ◆ Pedals allow sewing operators multiple combinations in stance and posture further enhancing their freedom of movement, balance and body positioning in relation to the sewing machine.
- ◆ Built with interchangeable parts, compatible with sewing machines of all makes and models (*including clutch motors*).
- ◆ Adaptive, highly durable, requiring low maintenance.
- ◆ 2-Year Warranty
