

ERGOBUDDY® Anti-Fatigue Footwear Insoles

Applying the
Science of
Ergonomics to
Footwear™

Anti-Fatigue Matting

Ergosert® Technology

Working and standing on hard surfaces, such as concrete and steel floors, causes wear and tear, breaking down the human body and resulting in cumulative trauma injury to the vascular and muscular-skeletal system.

US Patent Number 7, 913, 423 B2

ERGOSERT® Technology

Performance Advantages ★★★★★

- ✓ Industry leader in therapeutic comfort, shock absorption and compression performance.
- ✓ Laboratory certified to have the same ergonomic properties as premium industrial anti-fatigue matting.
- ✓ Lightweight and durable, it does not harden like PVC foam, does not break down like latex foam or take a compression set like EVA foam.
- ✓ Backed by a 3-year warranty.

FEATURES AND BENEFITS

- ✓ **Superior Fatigue Fighting Cushioning**
Continuous resiliency and comfort compared to leading brand insoles in laboratory tests with 3-5 times the durability and life span.
- ✓ **Ergonomic Tuned Cushioning**
Tuned cushioning is based on a scientific PSI Ergo Factor; weight and foot size provide pre-engineered comfort.
- ✓ **Extra Deep Heel Cup**
Improves the foot's natural cushioning and provides additional stability for the foot.
- ✓ **Tapered Toe Design**
Provides better fit in all shoes.
- ✓ **Air Flow**
Vents molded into the shape of the arch help move warm air out and draw cooler air into footwear.
- ✓ **Anti-Blister Top Cover**
By controlling the amount the foot slides across the insole's surface, the anti-blister top cover helps prevent blisters and keeps feet cooler & drier.
- ✓ **Versatile Fit and Use**
ERGOBUDDY® insoles will fit boots, hiking, casual, and athletic shoes. They are performance insoles to be used all day for standing, walking, or running.
- ✓ **Fights Odors**
The Microzap™ antimicrobial in the top cover helps keep the insole top odor free.

TRUSTED BY LEADING COMPANIES WORLDWIDE.
