

ERGOBUDDY® Anti-Fatigue Footwear Insoles

Anti-Fatigue Matting

Ergosert® Technology

US Patent Number 7, 913, 423 B2

Working long hours on hard surfaces such as concrete places excessive strain and wear on the human body, particularly the vascular and musculoskeletal systems.

ERGOSERT® Technology

Performance Advantages ★★★★★

- ✓ Laboratory certified to deliver the same ergonomic properties as premium industrial anti-fatigue matting
- ✓ Industry leader in therapeutic comfort, shock absorption, and compression resistance
- ✓ Lightweight and durable—it does not harden like PVC foam, does not break down like latex foam, and does not develop a compression set like EVA foam
- ✓ Backed by a 3-year warranty

FEATURES AND BENEFITS

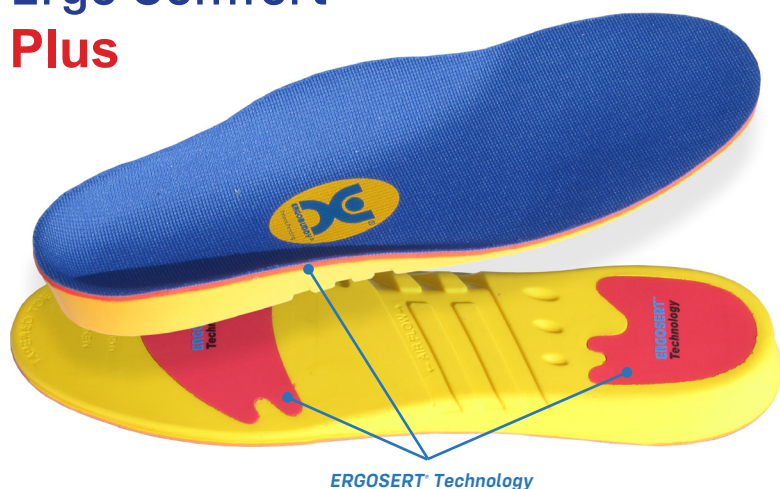

- ✓ **Superior Fatigue Fighting Cushioning**
Laboratory tested to deliver 3–5 times the durability and lifespan compared to leading brand insoles.
- ✓ **Ergonomic Variable Tuned Cushioning**
Cushioning is engineered using a scientific PSI Ergo Factor that matches weight and foot size for optimized comfort.
- ✓ **Extra Deep Heel Cup**
Enhances the foot's natural cushioning and provides added stability.
- ✓ **Tapered Toe Design**
Improves fit across a wide range of footwear.
- ✓ **Air Flow**
Vents molded into the arch help move warm air out and draw cooler air into the shoe.
- ✓ **Anti-Blister Top Cover**
Reduces friction to help prevent blisters while keeping feet cooler and drier.
- ✓ **Versatile Fit and Use**
Designed to fit boots, hiking, casual, and athletic shoes. Ideal for standing, walking, or running throughout the day.
- ✓ **Fights Odors**
Microzap™ antimicrobial technology helps keep the insole surface fresh and odor-free.

TRUSTED BY LEADING COMPANIES WORLDWIDE.

ERGOBUDDY® Anti-Fatigue Footwear Insoles

Ergo Comfort® Plus

✓ Extraordinary Comfort

(The industry leader in therapeutic comfort, shock absorption and life expectancy)

Featuring full-length Ergosert® Technology with additional pre-tuned support in the heel and forefoot. An anatomical footbed promotes proper alignment and stability while delivering exceptional durability and versatile performance.

FIT: Best used in footwear where the existing insole can be removed.

ERGO SERT™ Technology — Engineered to Never Take a Compression Set Under Human Activity

Ergo Comfort® ARCH2

✓ Extra Support System with Superior Comfort

Featuring full-length, pre-tuned Ergosert® Technology. The anatomically shaped arch support and heel cup work together to deliver enhanced support and stability.

FIT: Best used in footwear where the existing insole can be removed.

Ergo Comfort®

✓ Superior Comfort

Featuring full-length, pre-tuned Ergosert® Technology for exceptional comfort, durability, and versatility. High-resiliency cushioning provides reliable support throughout the day.

FIT: Versatile for most footwear, including shoes without removable insoles and low-profile footwear.
